

PROTEST ALLIANZ'S **NAZI PAST**

**PROFITEERING FROM THE HOLOCAUST
AND DENYING COMPENSATION TO SURVIVORS**

MONDAY, FEBRUARY 6, 2012 -- 10:00 A.M.

THE OLD COURSE AT BROKEN SOUND

**GATHER AT THE INTERSECTION OF YAMATO ROAD
AND BROKEN SOUND BLVD. (NORTH SIDE)**

BOCA RATON, FLORIDA

This is the first day of the Allianz Golf Tournament in Boca Raton, Allianz's effort to buy 'good will' and cover up a disgraceful past, as well as its present denial of justice and dignity. There will be a second protest as well on the final day of the tournament, Sunday February 12.

Last year, the community's outpouring of support for Holocaust survivors received international media attention and spurred several Members of Congress to initiate legislation to hold Allianz and other insurance companies accountable for their Holocaust profiteering.

This legislation is progressing but time is the survivors' enemy and they need action NOW.

The survivors need and deserve the community's full support so please plan on attending with your friends, neighbors, children, and grandchildren.

History of Allianz:

A **German** Insurance Company and among the ten largest in the world. Allianz CEO: Kurt Paul Schmitt, came to the Nazis before they came to

power, donated money to Hitler, joined the Nazi Party in 1933 and was Hitler's Economy Minister along with being an honorary member of the "SS" and a main culprit in the Third Reich who didn't want Jews part of the German Economy.

Allianz insured the "SS", factories, barracks, motor pools, death camps, etc. Allianz knew of the 'Slave Labor' and the mass extermination of nearly 7 million Jewish men, women and children and millions of others.

After World War II, Allianz and its affiliates refused to honor tens of thousands of insurance policies owed to Holocaust survivors and victims' heirs –demanding original policies and death certificates, documents no survivors could provide after Auschwitz. Instead of making good on its legal obligations, Allianz is spending money on public relations stunts such as this golf tournament.

In 2008, Allianz tried to put its name on the new NY Giants/NY Jets Stadium, which would have cost \$30 million a year for ten years, but the public outcry against this heinous branding by one of the Nazis worst offenders was thankfully called off.

Today, half of the Holocaust survivors in the United States live below or near poverty, while Allianz refuses to disgorge Holocaust profits refusing to honor tens of thousands of insurance policies, but found money for public relations bonanzas such as this golf tournament, and programming on National Public Radio and Sunday morning talk shows. How cruel can Allianz, one of the world's largest insurance companies, really be?

Shalom International urges everyone with a conscience to join with us and expose the truth and to demand what needs to be done at the White House, the Dept of Justice, Dept of State and the US Congress, as well as by Allianz, at this late hour.

If you wish to join this effort and also to lend your group's name to it, please let us know immediately, as we expose this effort, locally, nationally and internationally on behalf of all those who perished, all who have suffered and are still suffering from the neglect and politics of Allianz.

[Demands on Allianz:](#)

1. Publish the names of all Allianz and related European insurance policy holders between 1920 and 1945 on the internet, including later acquired companies like RAS.
2. Publish all records relating to Allianz's provision of insurance to the Government of Germany, the German Army, the SS, governments of occupied countries, and all other war related business between 1933 and 1945, including records relating to coverage of Nazi concentration camps.
3. Support legislation allowing Holocaust survivors and heirs to bring legal action in U.S. courts
4. Disgorge \$2 billion, representing unjust enrichment from Holocaust era, to be paid to those that were insured and their heirs and to fund social services for Holocaust survivors in need worldwide.
